INDEX.

Book Review. Water supply engineering. 358, June.
Brooks, Charles F. The rainfall of New England. General statement. 1, Mar.
Brooks, Charles F., and **Weber, J. Henry.** The rainfall of New England. The weather-map story of the flooding rainstorm of New England and adjoining regions, November 3–4, 1927. 106, Mar.

Cast-iron pipe is made and used, how small. By J. R. McWane. 495, Dec.
Committee on disinfection of water mains, progress report of the. 565, Dec.
Committee on painting standpipes, report of the. 553, Dec.
Committee on standard specifications, progress report of the. 568, Dec.
Control of microscopic organisms in public water supplies, with particular reference to New York City. By Frank E. Hale. 361, Sept.
Copper and health. By Wm. G. Schneider. 485, Dec.
Couch, A. D. Diesel engine pumping equipment. 458, Sept.

Dams in Japan, water supply and. By Allen Hazen. 451, Sept.
Diesel engine pumping equipment. By A. D. Couch. 458, Sept.
Disinfection of water mains, progress report of the committee on. 565, Dec.

Fair, G. M., Whipple, M. C., and **Hsiao, C. Y.** Hydraulic service characteristics of small metallic pipes. 499, Dec.
Flow and pressure studies, use of the Pitot tube and manometer or recorder in making water. By Hubert B. Smith. 471, Dec.
Fuller, Harry U. The submarine pipe-line between Portland, Me., and Great Diamond Island. 479, Dec.

Goodnough, X. H. The rainfall of New England. Rainfall in New England during the storm of November 3 and 4, 1927. 119, Mar. Rainfall in New England. 157, June.
Great Diamond Island, the submarine pipe-line between Portland, Me., and. By Harry U. Fuller. 479, Dec.

Hale, Frank E. Control of microscopic organisms in public water supplies, with particular reference to New York City. 361, Sept.
Hathaway, Alfred R. Obituary. 356, June.
Hazen, Allen. Water supply and dams in Japan. 451, Sept.
Health, copper and. By Wm. G. Schneider. 485, Dec.
Hill, Albert Banks. Obituary. 355, June.
How small cast-iron pipe is made and used. By J. R. McWane. 495, Dec.
Hsiao, C. Y., Fair, G. M., and **Whipple, M. C.** Hydraulic service characteristics of small metallic pipes. 499, Dec.
Hydraulic service characteristics of small metallic pipes. By G. M. Fair, M. C. Whipple and C. Y. Hsiao. 499, Dec.

Japan, water supply and dams in. By Allen Hazen. 451, Sept.

Mains, progress report of the committee on disinfection of water. 565, Dec.
McWane, J. R. How small cast-iron pipe is made and used. 495, Dec.
Microscopic organisms in public water supplies, with particular reference to New York City, control of. By Frank E. Hale. 361, Sept.

A NEW "JOB" MEANS A NEW LOCAL INDUSTRY

WHEN building a pressure pipe line, we usually set up a manufacturing plant at or near the site of the work, and there we make the pipe. We use local labor and local materials as far as practicable. Thus the building of a Lock Joint Pressure Pipe Line results in the setting up of a new local industry, and the spending of the major part of the costs of the project in the very community which is paying for it.
